RE: MULTIQUIP ADMORE PARK QUARRY CONDITIONS OF CONSENT TO OPERATE

As residents of Windellama and regular users of surrounding roads we wish to express our deep concerns regarding the new application by Multiquip Admore Park Quarry to use other existing unimproved local roads as a truck haul route and not proceed with the original proposal that was approved by The Honourable Kristina Keneally MP Member for Heffron Minister for Planning Minister for Redfern Waterloo *Friday 2 October, 2009*.

Not only will these trucks be travelling on the same roads that all local residents, school children and visitors use every day, we, the local ratepayers will be left to pay for all repairs to damages caused by heavy vehicles on our already deteriorating roads. Our community has nothing to gain by Multiquip Admore Park Quarry, on the contrary, it will only negatively impact the lives of all involved as well as the peaceful environment of Windellama and its' surroundings.

This displays a lack of respect by Multiquip Admore Park Quarry towards the residents and property owners of Windellama and surrounding areas as well as regular visitors.

We strongly urge you to uphold the original conditions of approval and respect the concerns of the people of Windellama and all involved.

Thank you for your support.

Sincerely,
