I strongly object to the construction hours proposed for this project to be extended to 10pm. At present we are experiencing noise from 5 am due to almost every day there is a boat docked at the Overseas terminal, with trucks backing up or delivering goods, taxis lined up down the street with engines running etc The effect of the extended hours will make it intolerable for us to live effectively and prevent us from opening our windows due not only to the noise but also the pollution. It is unacceptable that the proposed entry is between the Park Hyatt and Bay 11 of Campbell Stores, that would mean that it is right outside our window and the movement of vehicles for the extended period would seriously affect our quality of life.
