Dear Sir or Madam, SSD 8660.

at our meeting on 7-2-19 we discussed this application.

Our members have serious objections and concerns about this matter and all agreed to submit a letter of objection. Below are a few of the grounds for our objections for this proposal in such a major inappropriate place.

1. We have a democratic right to request that our community is not made a garbage dump area.
2. This application has similar wording and the same groups that inflicted the Central Mangrove landfill on our community which is a complete environmental social and emotional disaster.

Once the initial DA was approved which was NOT remotely like the plan we were sold. We had no more knowlege or rights of appeal and the matter just rolled over us literally!!.

3. This - SSD 8660 - is again not appropriate or in the best interests of our community.
4. It again adjoins crown lands which, can again be used to grow the garbage monster.

Could we ask that we recieve a detailed response to this submission please.

Sincerely.
M J Pontikos OAM. Hon. Secretary.
