Project Info

Project Name	Modification 3 Quarry Continuation and Stockpile Area Extension
Additional Estimated Development Cost (excl GST)	AUD8,000,000.00
Additional Operation Jobs	10
Additional Construction Jobs	6
Additional Dwellings	0

Modification Description

Recommencement, continuation and extension to the term of extraction and processing operations at the Barina Quarry of 15 years. The following modifications to operations or the development consent are proposed:

- The construction of additional stockpile areas.
- The importation of clean fill materials to supplement cut and fill, and overburden in the construction of additional stockpile areas.
- The incorporation of a washing circuit, and
- Allowance for laden trucks to enter the Quarry Site.

How is the modification substantially the same as the original development?

- The type of development, namely extractive industry / open cut mining, remains the same.
- No increase in annual production limits, extraction methods, product transportation or operating hours are proposed.
- Other changes (to processing and importation of clean fill) are ancillary to the principal development.
- The small increase in disturbance footprint will not result in any significant additional impacts.
- The predicted impacts would remain equivalent to those approved.
