Dear Kate,

**Dunmore Lakes Sand Extraction Project (DA195-8-2004)  
Soil and Water Management Plan**

I refer to the **Soil and Water Management Plan** (version 4, dated 3 February 2022) and your letter dated 15 February 2022 responding to the Natural Resources Access Regulator (NRAR) comments on the plan.

I also note the Department previously conditionally approved this plan on 13 July 2021 for the purpose of construction within the Stage 5 area at the quarry. I note the reason for not approving the plan for operation was outstanding advice from Department of Planning and Environment – Water Group (DPE – Water), which includes NRAR.

Given this outstanding advice has been received and the plan has been amended in response to NRAR's comments, I approve the Soil and Water Management Plan (version 4, dated 3 February 2022) in accordance with condition 30 of Schedule 3.

Please note that condition 21A of Schedule 3 requires sufficient water for all stages of the development prior to take of water occurring, or to adjust the scale of the development to match the available water supply. I note that in section 5.3.4 of the plan you commit to work with DPE – Water and NRAR to determine a suitable calculation of water take and the required water allocation.

If you wish to discuss the matter further, please contact me on [carl.dumpleton@planning.nsw.gov.au](mailto:carl.dumpleton@planning.nsw.gov.au).

Yours sincerely

A handwritten signature in black ink, appearing to read 'C. Dumbleton'. The signature is fluid and cursive, with the first name 'C.' and the last name 'Dumbleton' clearly distinguishable.
