Subject: Clyde Waste Transfer Terminal - Request to Update Independent Environmental Audit (IEA)
Frequency

Dear Miss Boukarim

I refer to your post-approval matter, DA205-08-01-PA-28, requesting that the frequency of IEA be altered from every year to every three years. In accordance with Schedule 2, Condition 58 of DA205-08-01 (consent), an IEA is to be undertaken annually unless the Planning Secretary agrees to an alternate frequency.

The Department has carefully reviewed the requested change to the frequency of IEA at Clyde Waste Transfer Terminal and is satisfied that an alteration of the IEA schedule to every three years, will not affect the overall environmental performance of the facility.

Accordingly, as nominee of the Planning Secretary, I approve the alternation of the IEA schedule to every three years.

Should you wish to discuss the matter further, please contact Zoe Marchant (Environmental Assessment Officer), on (02) 8289 6425 or via email at zoe.marchant@dpie.nsw.gov.au.

Yours sincerely

Lindsey Blecher
Team Leader
Industry Assessments

As nominee of the Planning Secretary
