PARRAMATTA NSW 2124

Dear Charissa,

RE: GINKGO MINERAL SANDS MINE – BIODIVERSITY OFFSET STRATEGY

Reference is made to Post Approval DA251-09-01-PA-31. Tronox Mining Australia Limited (Tronox) has been in consultations with the Biodiversity Offset Scheme (BOS) Credits Team within the NSW Department of Climate Change, Energy, the Environment, and Water (DCCEEW) regarding the retirement of credits required to fulfill Condition 18A, Schedule 3 of DA251-09-01.

We are pleased to confirm that the retirement of BOS credits, as required to comply with the planning approval condition was approved on 7 November 2024. Tronox received a copy of the Credit Retirement Report on the same date. The retirement has been duly registered on the BOS Public Register under the Transactions Register.

In accordance with Section 6.30 of the *Biodiversity Conservation Regulation 2017*, the retirement of biodiversity credits is conclusively presumed if recorded in the public register.

Should you have any queries or require further clarification regarding this matter, please do not hesitate to contact me.

Yours sincerely,

Chaka Chirozva

Environmental Lead

Tronox Mining Australia
