Newcastle NSW 2300

22 April 2022

Subject: Site Remediation of BHP Steelworks Site (DA293-08-00) – General Cargo Handling Facility

Dear Ms Kelly

I refer to your submission of the General Cargo Handling Facility Condition 1.1B Report 2022, Revision 00, dated 28 February 2022, under schedule 2 clause 1.1B of the Development Application.

Schedule 2 clause 1.1B requires at five yearly intervals following commencement of operation of the General Cargo Handling Facility, that the Applicant submit a report to the Direct-General (now Planning Secretary) outlining the ongoing need for the facility if to be retained on site and remain operational.

As nominee of the Planning Secretary, I acknowledge receipt of the abovementioned report pursuant to Schedule 2 clause 1.1B of the Development Application.

I also remind you that an indefinite extension of the General Cargo Handling Facility would require a modification of the 2001 consent or an application for planning approval under the 20212 Activities Concept Plan (MP_09_0096), prior to 13 April 2023.

If you wish to discuss this matter further, please contact Amy Porter at amy.porter@planning.nsw.gov.au.

Yours sincerely

A handwritten signature in dark ink, appearing to read "M. Todd-Jones".
