

Modification of Minister's Consent

Section 75W of the *Environmental Planning & Assessment Act 1979*

As delegate of the Minister for Planning and Infrastructure under delegation dated 14 September 2011, the Planning Assessment Commission of New South Wales approves the modification of the development application referred to in schedule 1, subject to the conditions in schedule 2.

Gabrielle Kibble AO
CHAIR OF THE COMMISSION

Sydney

28 May 2013

SCHEDULE 1

Development consent:

DA-31-2-2004-i granted approval by the Minister for Infrastructure and Planning on 10 June 2005.

For the following:

Construction and operation of the Uranquinty Power Station, including:

- a 600 megawatt (MW) peak load / high shoulder load gas-fired power station, in two stages;
- Office and workshop facilities;
- Transformers and switchgear;
- Fire service and fire water storage;
- Diesel storage and pumping;
- Stormwater storage pond;
- Evaporation basins;
- Contained composting toilet system;
- Demineralised water plant; and
- Underground connection to gas pipeline.

Modification:

DA-31-2-2004-i-MOD 10: Construction and operation of an extended on-site storage shed, comprising a 12 metres x 16 metres x 4.5 metres new storage shed extension for spare parts on-site storage.

SCHEDULE 2 CONDITIONS

The development consent is modified by:

1. Replacing condition 1.1i) with the following:

- 1.1 i) additional information provided by email from Origin Energy Limited to the Department dated 14 March 2013 entitled *Attachment 1 Uranquinty Power Station Proposed Storage Shed Extension Modification Report*;

2. Inserting after condition 1.1 i):

- 1.1 j) the conditions of this consent.

3. Replacing condition 1.2 with the following:

- 1.2 In the event of an inconsistency between:
- a) the conditions of this consent and any document listed from condition 1.1a) to 1.1i) inclusive, the conditions of this consent shall prevail to the extent of the inconsistency; and
 - b) any document listed from condition 1.1a) to 1.1i) inclusive, and any other document listed from condition 1.1a) to 1.1i) inclusive, the most recent document shall prevail to the extent of the inconsistency.

4. Inserting after 3.16

- 3.16A A **Project Work Method Statement** shall be prepared prior to the commencement of construction for on-site refuelling of construction equipment required for the shed extension, as permitted by condition 1.1i), including provision for such re-fuelling to be conducted from a mobile contractor in a designated area and conducted in accordance with the Uranquinty Power Station Environmental Management Plan.

5. Inserting after 3.32

Surface infrastructure impacts

- 3.33 Prior to the commencement of construction of the shed extension, as permitted by condition 1.1i), barricading shall be installed between the work zone and the above ground gas pipeline that is located in the south-west of the site, as illustrated in *Uranquinty Power Station Proposed Storage Shed Extension Modification Report: Figure 3*. All construction work shall be undertaken in a manner that prevents disturbance of this above ground gas pipeline.
