Dear Deana

**Correction to exhibition document titled “Modification Application\_20250818054222”**

I am writing to request that an error in the exhibition material (Modification Application\_20250818054222) for State Significant Development Modification “Mod 6 Chlorine Liquefaction Plant” (DA35/98-Mod-6) be noted and superseded.

The application was placed on exhibition on 3 September 2025 via the NSW Planning Portal, and is accessible via the following link:

<https://www.planningportal.nsw.gov.au/major-projects/projects/mod-6-chlorine-liquefaction-plant>.

The error relates to the “Additional Estimated Development Cost (excl. GST)” field under the Project Info section of the Modification Details on page 1. The field currently incorrectly states:

**“AUD 25,000,000.00”**

The Additional Estimated Development Cost (excl GST) field should be corrected to:

**“AUD 45,000,000.00”**

This correspondence serves to supersede the previously published value.

Kind Regards

A handwritten signature in black ink, appearing to read 'JV', is positioned above the name 'Jacob Vickers'.
