Dear Ms Tran

**Redox Chemical Storage and Distribution Facility
Approval of the Operational Environmental Management Plan
(DA No. 367-11-2002-i)**

I refer to your request dated 19 March 2021, seeking approval for the updated Operational Environmental Management Plan (OEMP) as required by Condition 7.4 of Schedule 2 of DA No. 367-11-2002-i, including a revision to the following sub plans:

- Noise Management Plan (Condition 7.5 (a));
- Transport Management Plan (Condition 7.5(b));
- Stormwater Management Plan (Condition (c));
- Waste Management Plan (Condition 7.5(d)); and
- Landscape Management Plan (Condition 7.5(e)).

The Department has carefully reviewed the revised management plans and sub-plans and is satisfied the plans address the relevant conditions. Accordingly, the Planning Secretary has approved the updated OEMP and associated subplans (prepared by Redox Pty Ltd, dated March 2021, Revision 4). Please ensure the approved plan is placed on the project website at your earliest convenience.

The Department notes that you have not yet installed the wet scrubbers for the development but intend to update the OEMP to include further details of the air monitoring program prior to installing the wet scrubbers.

Under condition 1.3A of the consent, the Planning Secretary has requested that no more than four weeks prior to installing the wet scrubbers you must provide a revised OEMP, which includes further details of the air quality monitoring program required by Condition 7.4(vii) for the approval of the Planning Secretary.

Should you have any further enquiries, please contact Pamela Morales, Planning and Assessment, at the Department on (02) 9274 6386 or via pamela.morales@planning.nsw.gov.au.

Yours sincerely

Yours sincerely
