Ms Meghna D'souza
Resource and Energy Assessments
NSW Department of Planning and Environment

meghna.dsouza@planning.nsw.gov.au

Dear Ms D'souza

**Sunrise Mine Modification 6 (DA 374-11-00 MOD 6)
Comment on the Response to Submissions**

I refer to the email of 26 February 2018 to the Department of Industry in respect to the above matter. Comment has been sought from relevant branches of Lands & Water and Department of Primary Industries.

Any further referrals to Department of Industry can be sent by email to landuse.enquiries@dpi.nsw.gov.au.

The Department has reviewed the RTS and considers all matters of regulatory interest have been adequately addressed. The Department provides the following recommendations for consideration in assessment of the proposal.

Recommended conditions of approval

- The proponent must ensure works within waterfront land are designed and constructed in accordance with the "Guidelines for Controlled Activities on Waterfront Land (DPI Water 2012)".
- The proponent must prepare a Surface Water Management Plan and Irrigation Management Plan in consultation with DoI Water.
- The final soil and land classification for the land is to be achieved to a level that is at or better than the existing site capability as a key outcome for rehabilitation.

Yours sincerely

Alison Collaros
