Subject: Sunrise Nickel/Cobalt - 2024 Independent Environmental Audit - extension request

Dear Ms Flynn

Reference is made to your post approval matter, DA374-11-00-PA-24, requesting an extension of time to undertake the Independent Environmental (IEA) for Sunrise Nickel/Cobalt Project, submitted to the NSW Department of Planning, Housing and Infrastructure (NSW Planning) on 19 February 2024.

NSW Planning has reviewed the request and notes:

- 3 production bores have been constructed;
- the production bore installation activities are considered to represent a minor component of the overall Project and resulted in minimal potential environmental impacts and
- construction of the other Project components is not currently proposed.

In accordance with Schedule 5, Condition 10 of DA 374-11-00 (the consent) as modified, the Planning Secretary has granted an extension of time until one year from the commencement of construction of the mine and processing facility.

Should you wish to discuss the matter further, please contact me on 0429400261 or email compliance@planning.nsw.gov.au

Yours sincerely

Katrina O'Reilly
