Ms Sally Munk
Principal Planning Officer
Department of Planning, Industry and Environment
GPO Box 39
SYDNEY NSW 2001

Dear Ms Munk

DA 401-11-2002-i-PA-6 – Post Approval – Updated Operational Environment Management Plan Boral Cement Berrima

I am writing in response to your email and attached documents dated 9 June 2020 to the Environment Protection Authority (EPA) relating to the provision of an updated Operational Environment Management Plan (OEMP) for the above approval. The updated OEMP includes updates to the Noise Management Plan and the Air Quality Management Plan for the activities at Boral Cement Limited's (Boral) Berrima plant.

Following a review of the updated OEMP the EPA advises that the plan(s) appear to incorporate all of the requirements outlined in the conditions of consent. DPE should ensure that the proponent reviews and updates the OEMP as necessary.

Additionally, the EPA provides the following comments. EPA supports the development of Environmental Management Plans (EMPs) as part of good environmental management but does not generally approve specific EMPs for industry operations. The preparation and implementation of any (EMP) for the above works is ultimately the responsibility of Boral. Boral may wish to have the OEMP audited to an industry standard or certified to the ISO 14001 Standard as part of an overall Environmental Management System.

If you have questions regarding the above, please phone the contact officer on (02) 4224 4100.

Yours sincerely

24/06/2020

GREG NEWMAN
Senior Operations Officer
Environment Protection Authority
