Subject: RE: Boral Berrima Cement EPL 1698 - AKF5 specification amendment request

Hi Greg

Thanks for providing the draft changes to the AKF5 specification for EPA review.

The EPA has reviewed the specification and approves of the changes. We advise that Boral must take all reasonable steps to ensure any facility it receives AKF5 from have appropriate procedures in place to ensure tyre inputs are not contaminated with foreign materials/contaminants from non-conforming waste.

Please contact me if you have any questions.

Regards

Jarryd Thomson

Subject: Boral Berrima Cement EPL 1698 - AKF5 specification amendment request

Hi Jarryd,

Please see attached a request to review our current specification for AKF5 at Berrima.

Sally - FYI. As per condition 3.20 we need to show evidence of consultation with the EPA prior to submission with DPHI.

Regards
