Modifications to Hunter Valley Operations North (DA 450-10-2003 MOD 4)
Notification of Environmental Assessment

Coal and Allied Pty Limited has submitted an application to modify its project approval for the above project.

The proposed modification includes:

- construction and operation of a new fine coal reject emplacement area;
- use of an existing mine void for fine coal reject emplacement; and

* a minor amendment to the project boundary.

The Modification Application and Environmental Assessment (EA) will be on public exhibition from Friday 21 June 2013 until Wednesday 10 July 2013. I have arranged for the proponent to supply you with a copy of the EA directly. These documents may also be viewed on the Department's website (www.majorprojects.planning.nsw.gov.au<<http://www.majorprojects.planning.nsw.gov.au>>).

I would appreciate it if you could make a copy of the EA available for inspection at your office during the exhibition period.

I invite you to make a submission on the modification, including advice on recommended conditions of approval, by Wednesday 10 July 2013.

If you have any enquiries on this matter please contact Elle Donnelley.

Yours sincerely,

Elle Donnelley
