Modification Description

To extend mining operations at Clarence from 31 December 2026 for a further five years until 31 December 2031, within the existing approved mining lease (ML) 1583.

How is the modification substantially the same as the original development?

The proposed modification is considered to allow the Project to remain substantially the same development, as:

- no change to key aspects of the project, including how the mine operates
- no change to the approved extraction rates, mining methods
- no major infrastructure or changes to approved mining operations, including coal handling and processing or transport systems
- the proposed changes to operations are unlikely to materially change the approved impacts of the mine overall.
