Jennifer Rowe
Senior Compliance Officer
Department of Planning, Industry and Environment
Level 2, 84 Crown Street
Wollongong NSW 2500

Dear Ms. Rowe,

DA 504-00 Notification – Non-Compliance

In accordance with Clarence Colliery DA 504-00, Schedule 5, Condition 5B, we are writing to give notification of a non-compliance.

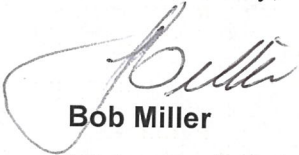

This non-compliance pertains to the Environment Protection Authority issued Environment Protection Licence (EPL) 726 as per DA 504, Schedule 3, condition 4, *Water Discharge Pollution Limits*.

The non-compliance was recorded in the 13 July 2022 grab sample at Licenced Discharge Point 002 (LDP002) which showed an elevated reading in Total Nitrogen of 0.9 mg/L against the EPL limit of 0.25 mg/L. The confirmed results were received on the 26 July 2022.

The reason for the non-compliance is under investigation, however, it should be noted that within the 14-day period before the non-compliance, over 200mm of rain was recorded on site.

Please do not hesitate to contact Robert Setter, Environment and Community Coordinator, Clarence Colliery on (02) 6353 8019 or email robert.setter@centennialcoal.com.au if you require any further information.

Yours sincerely,

Bob Miller

Mining Engineering Manager (Acting), Clarence Colliery
