Dear Mr Murphy,

Re: Spring Farm Quarry – Modification 4 (DA 75/256 MOD 4) – Response to Submissions

Thank you for the opportunity to provide advice on the subject proposal. This is a response from NSW Department of Planning & Environment – Division of Resources & Geoscience, Geological Survey of New South Wales (GSNSW).

It is unclear from the Response to Submissions if GSNSW advice was received by the proponent. GSNSW reiterates the Spring Farm Quarry comprises part of the regionally significant Elderslie sand and soil resource identified in Sydney Regional Environmental Plan No. 9 (Extractive Industry). The Elderslie resource is a regionally important source of sand and soil products for the Sydney region.

Queries regarding the above information, and future requests for advice in relation to this matter, should be directed to the Division of Resources & Geoscience - Land Use team at landuse.minerals@industry.nsw.gov.au.

Yours sincerely

Cressida Gilmore
Manager - Land Use
