Content:

The proposal as written seems to indicate that 300 vehicle movements a day will have no impact on local residents. I disagree.

I am concerned that local streets will become transit ways & parking bays for heavy trucks and staff waiting to access the site or seeking proper toilet facilities and meals seems there is no provision for toilets on site (only portable ones)

Any approval needs to be conditional on no heavy vehicle access through Mayfield East Streets and no Parking on Industrial Drive to go to McDonalds or the Service Station etc.
