The Shire Clerk / General Manager
Singleton Shire Council,
Queen St
Singleton. 2330

Re: The Cambewell Coal Project

I would like my objection noted to the proposed Cambewell mine. I realise that it is probably pointless to object, for if almost the whole of Singleton & its including Singleton Shire Council, could not stop the Cambewell mine receiving the go ahead, then who is going to listen to a few small landowners along Bridgeman Rd objecting to Cambewell coal.

It seems that we are going to be on the receiving ^{end} of the dust, noise, traffic and pollution of three proposed mines in what is now a quiet, peaceful area.

If we have no hope of stopping

his mine I would ask that Council impose
strict regulations on the mine in regard to
dust, noise and traffic.

Yours Faithfully
Gail Wilton
