Dear Thomas

RE: THE WORKS STAGE 2-4 CIVIL SSDA TIA – RESPONSE TO TfNSW COMMENTS

It is understood that Transport for NSW (TfNSW) has provided RFI comments on The Works Stage 2-4 Civil SSDA. This letter has been prepared as a response to the following comment from TfNSW:

Contribution to Road Network Infrastructure. Provide details outlining how the developer will contribute to the broader road network infrastructure upgrades required to mitigate the impacts of the proposed development.

The Civil Works SSDA seeks development consent for facilitating civil works and a subdivision to support a concurrent Stage 2a Built Form SSDA, and the future redevelopment of Stages 2-4 of the Corrimal Coke Works Precinct.

The Civil Works is essentially providing supporting elements and infrastructure to the overall development, and does not include the traffic generating aspects of the completed development works such as by dwellings, retail, and other uses within the development. The traffic generated by the Civil Works is limited to construction vehicles during the construction stages of the project. This traffic is temporary, of negligible volume on the state road network, and does not trigger upgrades to road infrastructure.

A cumulative assessment of traffic impacts undertaken as part of the Civil Works TIA found that the highest volume of construction traffic generated by the development would be a maximum of 60 heavy vehicle movements per day, and 15 heavy vehicle movements per hour. This will result in a negligible increase in traffic movements on Memorial Drive in terms of congestion or pavement impacts.

The impacts mitigation to address the congestion impacts of full development of the project on state transport infrastructure has already been agreed with TfNSW in its correspondence of 22 September 2020 (see Attachment 1) which stated:

“From a State road perspective, TfNSW believes a more appropriate way forward could include the following:

- 1. A monetary contribution, through a Planning Agreement or other mechanism, from the proponent towards major upgrades to Memorial Drive at three intersections (i.e. Towradgi Road, Railway Street and Rothery Street).”*

Then, the NSW government entered into a VPA with the applicant in March 2025, for Stage 1, as per the following table (also see Attachment B)

Development Contribution	Value	Timing
Monetary contribution towards designated State public infrastructure	\$6,374.18 for each Dwelling in the Development.	Pursuant to clause 3 of this Schedule 4

In summary, the state transport contribution for state transport impacts of the full development proposal is resolved via the Built Form SSDA and therefore is not relevant for consideration under the Civil Works SSDA. Furthermore, the construction traffic impacts of the Stage 2-4 Civil Works on state transport infrastructure is negligible, and does not require mitigation, and is otherwise covered in the agreed state government contribution arrangements for the entire project.

Yours faithfully

PLANNING PROPOSAL FOR CORRIMAL COKEWORKS SITE

Dear David

Transport for NSW (TfNSW) refers to the subject planning proposal, additional information provided to support the planning proposal and the meeting between Council, the proponent and TfNSW on 14 September 2020.

TfNSW has completed an assessment of the planning proposal from a State road network perspective. The key State road is Memorial Drive. This response is not intended to address matters relating to rail. TfNSW notes the following:

- Memorial Drive and the surrounding local towns currently experience high traffic demands in the AM PM and weekend peaks, particularly around the intersections of Memorial Drive with Towradgi Road, Railway Street and Rothery Street.
- The planning proposal would facilitate development which would generate a significant number of vehicle movements. The proponent's Traffic Impact Assessment (TIA) predicts 373 AM trips and 456 PM trips.
- The TIA identifies a strong attraction to the west of the site, adopting a distribution of 73% to and from the west. Of the 73%, the TIA identifies 40% will be travelling to or from the south (on Memorial Drive) while 15% will be travelling to or from the north (on Memorial Drive). TfNSW is comfortable with the methodology used in the TIA.
- For the PM peak, this means around 332 additional trips through the Memorial Drive/Railway Street intersection. It also means around 182 additional trips through the Memorial Drive/Towradgi Road intersection and around 68 additional trips through the Memorial Drive/Rothery Street intersection.
- The proponent has undertaken modelling to consider the likely impact on the Memorial Drive/Railway Street intersection and has identified potential minor upgrades to offset their traffic impacts.
- TfNSW understands the proponent is willing to consider delivering an upgrade at Memorial Drive/Railway Street as works in kind as part of a voluntary planning agreement and, should they not be able to reach agreement with TfNSW on the scope of works for an upgrade, that they would be open to considering the provision of a monetary contribution for State road upgrades, also as part of a voluntary planning agreement.

TfNSW believes the minor upgrades proposed could help maintain the existing level of service at the intersection of Memorial Drive and Railway Street. Similarly, minor upgrades on Memorial Drive at the intersections of Towradgi Road and Rothery Street could do the same. However, given the existing high

traffic demands and continuing traffic growth in the area, TfNSW believes major upgrades will be required at these intersections. TfNSW does not believe it would be reasonable to expect the proponent to deliver these major upgrades in full. From a State road perspective, TfNSW believes a more appropriate way forward could include the following:

1. A monetary contribution, through a Planning Agreement or other mechanism, from the proponent towards major upgrades to Memorial Drive at three intersections (i.e. Towradgi Road, Railway Street and Rothery Street).
2. Consideration to local road connections around the broader precinct to reduce the number of movements and/or conflicts at intersections along Memorial Drive and, where appropriate and reasonable, delivery of these connections or planning to preserve these connections as options for the future. For example, consideration to a local road connection between the site and Cross Street. Such a connection could enable the existing junction of Railway Street and Cross Street to be closed, thereby reducing conflicts at the intersection of Memorial Drive and Railway Street and removing a significant constraint to a major upgrade at this location. TfNSW would support the cost of any such connection being offset from the above monetary contribution. TfNSW believes a working group consisting of Council, the proponent and TfNSW be formed to examine local road connections.
3. Planning controls (i.e. as part of the DCP) to minimise residential parking on the site, consistent with the provisions of Section 7.4 of the existing Council DCP, recognising the close proximity of the site to public transport.
4. The early provision (by the proponent) of shared paths internal and external to the site to increase the attractiveness of walking and cycling for future residents of this site and existing residents in the surrounding area. TfNSW notes Attachment 1 shows the paths proposed by the proponent. TfNSW believes more consideration needs to be given to internal and external paths to identify an appropriate network and clarify the scope of works. The design of the network needs to promote walking and cycling to key locations above driving a car. Key locations include the railway station, the bus stops, the town centre, schools, other existing residential catchments, existing shared paths etc. The provision of broader network paths/active transport will reduce the vehicle trip demand on Memorial Drive.
5. Appropriate arrangements in and around the site to increase the attractiveness of public transport (both rail and buses).
6. Noise mitigation measures (as required) within the site to mitigate traffic noise from Memorial Drive.

TfNSW has no objections to the planning proposal going on public exhibition. If you have any questions please contact myself on 4221 2570.

Please ensure that any further email correspondence is sent to development.southern@rms.nsw.gov.au.
