GENERAL NOTES

These drawings are for Development Application only, not to be used for pricing or construction purposes.

Please note that the plant graphics are indicative sizes only and not an accurate representation at time of purchase.

Do not scale from drawings. All dimensions in mm unless otherwise stated. Figure dimensions shall take precedence over scale.

Contractors must verify all dimensions on site before the commencement of any works.

Service locations on plans are indicative only. *Dangar Barin Smith* accepts no responsibility for the accuracy of service locations shown or for services not shown. It is the responsibility of the contractor to locate and protect all services on site and in adjacent public domain prior to the commencement of work, including contacting *Dial Before You Dig* and performing on site service locations. Any damages to services and associated damages remains the responsibility of the contractor and shall be rectified at no cost to the client or any other party.

Structural Details shall be subject to Engineer's Specifications.

Drainage & Water Feature Details shall be subject to Hydraulic Engineer's Specifications.

All work shall be carried out in accordance with ASA, BCA and Local Government Regulations.

All work shall be carried out in a professional manner by Qualified Tradesman according to Landscape Drawings and Engineer's Specifications.

No responsibility will be taken by *Dangar Barin Smith* for any variations in design, construction method, materials specified, and general specifications without permission from the Project Engineer or Landscape Architect.

This Drawing is copyright to *Dangar Barin Smith*.

GENERAL PLANTING NOTES

Plant Establishment Note

It is recommended that all plants used be subject to an establishment period. During this period maintenance work carried out will include; watering, mowing, weeding, fertilising, pest and disease control, reseedling, returfing, staking and tying, replanting, cultivating, pruning, hedge clipping, aerating, reinstatement of mulch, top dressing and keeping the site neat and tidy.

Plant Quality Note

Plants shall be vigorous, well established, of good form consistent with species or variety, not soft or forced, free from disease and insect pests, with large healthy root systems and no evidence of having been restricted in growth or damaged. Root system shall be well balanced in relation to the size of the plant.

Root Barrier Note

Install "root barrier" or equivalent to manufacturers specifications to protect nearby structures and services.

Temporary Irrigation to Existing Trees Note

Install temporary drip irrigation system under mulch in tree protection zones and water on allotted days.

Site Preparation

All existing plants marked for retention shall be protected for the duration of works. Remove from site all perennial weeds and rubbish before commencing landscape works.
All adjoining property elements including but not limited to buildings, walls, trees and paving to be protected. Damaged elements remain the responsibility of the contractor and shall be rectified at no cost to the client or any other party.
Existing trees to be retained are to be protected to Council and Project Arborist's requirements. No vehicular traffic, stockpiling or storage of materials within Tree Protection Zones (TPZs).

Soilworks

Thoroughly cultivate the subsoil to a depth of 200mm. Supply and install to a depthof 300mm quality garden soil mix to all planting beds and 150mm turf underlay to lawn areas.

Mulch

Supply and install a 75mm layer of hardwood horticultural grade mulch to all planting beds set down 25mm from adjacent paving or garden edge.

Maintenance

All failed or defective plant species to be replaced by landscaper for a 3 months period following completion of work. Further maintenance during and after this period should include watering, weeding, fertilising, pest and disease control, pruning and hedging, reinstatement of mulch and keeping the site neat and tidy.
