Whole of life-cycle Green House Gases

There has been no calculation made for the **most potent Green House Gas of all** - **man-made SF 6** - leaking from all of Squadron's increased, unnecessary Switch Gear & Circuit Breakers associated with Squadron's extremely hazardous and dangerous Dubbo Firming Power Station/Hydrogen plans - designed to be the far too costly backbone for Squadron's other experimental failures - the toxic Bisphenol A/PFAS/Asbestos contaminating and SF6 leaking, UNREGULATED Uungula Swindle Factory monstrosity under Construction and yet another revolting, ecocidal, wrongly approved UNREGULATED Spicers Creek Swindle Factory disaster nearby.

****Climate Change: Electrical Industry's 'Dirty Secret' Boosts Warming - BBC News**
