Response to Submissions**

The exhibition of the Environmental Impact Statement (EIS) for the above proposal ended on 1
March 2021. All submissions received by the Department during the exhibition of the proposal are
available on the Department's website at
<https://www.planningportal.nsw.gov.au/major-projects/project/10456>

Please note that a submission from DPIE Water is pending and will be submitted to you upon
receipt.

The Department requires that you provide a Response to Submissions report that addresses the
issues identified in the submissions from members of the public, interest groups and government
agencies. The Department strongly encourages you to consult with these government agencies
during the preparation of the Response to Submissions.

Should components of the proposal be amended to improve the design of the project, respond to
issues raised in submissions or reduce the impacts of the project, Transport for NSW must outline
these changes to the project in an Amendment Report with any amended SSI application. The
Department may exhibit and seek public comments on the Amendment Report.

If you have any questions, please contact Belinda Scott, who can be contacted on 8217 2080 or at
