

19/5/2021

I object to this project which is going to have affect on my life style which is not what we came into

My husband and I moved into here about 9 1/2 years ago to spend the rest of our life with knowing we would not have to rely on our family we were told that all the services were there for us to use which was what made us buy into our unit

We didn't know that we are going to have a construction site on our door step for the next 10-15 years. My husband has health issue's with his lungs we are going to have DUST NOISE VIBRATION & what about the traffic and where is everyone going to park

We were told we will lose our garage and were told they don't know were are going to park our cars what a joke where are we all going? we own the garage

My next concern is all the trees taken down the bird life in village is beautiful what happen to them tree have been there longer than us.

And the danger to the school kids with all the truck coming and going its not good now in school times

If I was a parent and my kids are using the road to cross I would be very concerned

* The Augusta Shops are always busy

* With the development it is so big we will all be living in a concrete jungle I didn't move in here for this we move in for a peaceful life no stress and with all the services for residential age care

* Bus Stop + Pool we won't be able to get to these are things we use all the time

* Our lives are going to be hell think about this would you live here All they think about is making money what a joke.
