Dear Jane

I, like other Cadia Residents would like to thank you for meeting with residents (I was in Sydney unable to attend) on Thursday and playing your part in the DPIE extending the Mod 14 Exhibition (submissions) period to 19/2/21.

What I find disturbing on the part of Newcrest/Cadia , CVO , is the fact that I , a known interested community participating Cadia Resident , **was never notified of this Exhibition Period by CVO !**

This is despite me having received no less than eight emails from Matthew Armstrong regarding matters relevant to Mod 14 submissions after the commencement of the Exhibition Period – 18/1/20 , 21/12/20 , 27/2/21 , 27/2/21 , 28/2/21 , 28/2/21 , 2/2/21 & 2/2/21 and six emails from Lindsey Tilberg , more community related , since her 18/12/20 email and CVO posted material **YET the opening of the Exhibition Period was never mentioned** until Matthew's following email advising extension of the Exhibition.

What is as galling to me is that recent Consent Modifications have been approved during periods , for example the second half of 2019 , when I was in full blown communications , meetings , emails and even agreements with Peter Sharpe , then General Manager of CVO and Matthew Armstrong **YET NO NOTICES of Exhibition** of these modification applications were ever received. I like others would have made strident objections to matters approved in those Applications.

CVO's attitude towards Cadia Residents and the wider community can only , at best , be perceived as disingenuous.

I trust CVO takes these comments on board and agrees that Cadia Residents and other relevant wider community members are given direct notice of all future Modification or other State or Local Government Applications .

While I am on the subject of disclosure , to obviate me undertaking LPI searches or GIPA Applications , I request from you :-

- i. Why is Meribah shown as a Mine Property on Mod 14 Figure 1-2a ?
- ii. Copies of all complaints (whether formal or informal) made by Cadia Residents or others , regarding dust emissions /breaches of SSDA Consent Conditions 17 & 19 , to either EPA or CVO and any determination , direction, order or correspondence issued by EPA or CVO in response to these complaints.

Subject: Cadia East Gold/Copper Project - Modification 14 Exhibition Extension
Date: Thursday, 4 February 2021 at 3:22:11 pm Australian Eastern Daylight Time
From: Emily Murray <Emily.Murray@planning.nsw.gov.au>

Good afternoon,

The Department understands that some previous submitters on the original environmental assessment of the Cadia East Gold/Copper Project (MO06_0295) were not notified of the commencement of the exhibition period for the Cadia East Gold/Copper Project – Modification 14 (MP06_0295-Mod-14).

As such, the Department is extending the exhibition period which commenced on **21 January 2020** until **Friday 19 February 2021**.

Details of the exhibition are outlined in the attached letter.

Submissions on the modification application can be made through the Major Project's Portal at <https://www.planningportal.nsw.gov.au/major-projects/project/36686>

Instructions on how to make a submission is available on the Department's website: <https://www.planningportal.nsw.gov.au/major-projects/help/how-guides>

For any further queries, please do not hesitate to contact myself on the details below.

Kind regards,

Emily Murray

My Dear Minister

I refer to my email of yesterday , below , and now attach emails from other Cadia Residents concerning the lack or lateness of notice from DPIE re Cadia SSDA Mod 14.

Kind regards

John Gerathy

Subject: Cadia / Newcrest Modification 14 Application

My Dear Minister

I would not normally trouble you with issues such as set out below , however , Cadia's Modification 14 currently on exhibition -closing this Friday 5/2/21 raises a number of serious problems for the local Cadia Residents of which I am one (" Errowanbang " being properties 54 & 2125 located within one property of Cadia's STSF). Because of lack of notification or consultation in respect of this massive and far reaching Application the Cadia Residents do not have the time to make appropriate submissions to DPIE.

We have been refused an extension by DPIE as set out in the attached correspondence.

I request you , on behalf of my fellow Cadia residents to intervene and direct your Director to extend the Exhibition period by fourteen days. The Applicant cannot suffer from this extension save to the extent submissions are heeded in the Applicant's Determination.

Kind regards

John Gerathy LLM
