

We the undersigned, object to the current Lourdes Retirement Village redevelopment initiative (SSD-88004956) at 95-97 Stanhope Road, Killara NSW 2071 by Levande (under Swedish EQT Infrastructure) via NSW DPHI, given serious concerns that have not been appropriately addressed in relation to the following domains:

- Bushfire & Emergency Evacuation
- Environmental & Biodiversity Impacts
- Traffic, Infrastructure & High Density
- Resident Vulnerability & Disruption
- Procedural Unfairness & Insufficient Consultation

With the Lourdes Redevelopment proposal having been declared a State Significant Development (SSD), Ku-ring-gai Council has been stripped of its local planning authority and silenced community objections. The need for stakeholders to undertake appropriate due diligence and submit an informed response has been compromised by the excessively short exhibition period (21 July to 3 August 2026), and by the notably limited extent of mail notifications to an area adjoining the Lourdes site.
