

Mr Rhyson Li
Director
Oxley Solar Development Pty Ltd

21/04/2021

Dear Mr Li

Oxley Solar Farm (SSD-10346)
Response to submissions

The exhibition of the development application including the Environmental Impact Statement (EIS) for the Oxley Solar Farm ended on 14 April 2021.

The Department received 79 submissions from the public on the project. Advice was received from 14 government agencies.

All submissions received by the Department during the exhibition of the proposal are available on the Department's website at: <https://www.planningportal.nsw.gov.au/major-projects/project/14201>

Advice from the Department's Biodiversity Conservation Division and Fire and Rescue NSW are yet to be received and will be provided to you as soon as possible.

The Department requests in accordance with clause 82(2) of the *Environmental Planning and Assessment Regulation 2000*, that you provide a Submissions Report which responds to the issues raised in agency advice and submissions as soon as reasonably practical.

In this regard, once you have had a chance to review the submissions, the Department would like to meet with you to discuss the issues raised and the timing of your proposed response.

The Department considers this meeting should occur in late May and I would appreciate if you would contact May Patterson to arrange the meeting. Ms Patterson can be contacted on 8275 1190 or at may.patterson@planning.nsw.gov.au.

Yours sincerely

Nicole Brewer
Director
Energy Assessments

as delegate for the Planning Secretary
