**Subject:** Online Submission from Glenn Watson (object)  
**CC:** <assessments@planning.nsw.gov.au>

---

Wanting to know more about the application and how it will affect the residents in the street. Have not been able to see any setout on the web site and due to the fact I cannot get to the Council Chambers during work hours. I would therefore request an outlining proposal be posted on the web or a directory of where it may be found. Are there any traffic proposals to be instigated that will affect the access to the sites, is there any future thought being considered on access to and from the freeway as it is only just coping with the extra lane that has been made available @ old Wallgrove and Wallgrove Road. Proposing a Business Park already within a busy industrial park with only one way in and out and expecting it to cope with increases in traffic and no upgrade to access, If there is an accident at this intersection, as there has been in the past, the only way to get out is to fly out .
