Applicant: Davis Earthmoving & Quarrying Pty Ltd

The Hon Anthony Roberts
Minister for Planning
NSW Government

Dear Mr Roberts

Somersby Waste Disposal Plants

Residents of Kariong and Somersby, as well as factory owners and workers are extremely alarmed at news of the proposed concrete crushing and waste management plants to be located on Gindurra Road in Somersby East.

Every factory owner, school teacher, home owner, Riding for the Disabled Instructor and responsible person in the juvenile justice system has a duty of care not only to themselves and their own health but are also require to ensure that the health of those for whom they are responsible is not placed in jeopardy.

The proposals themselves have admitted that it is impossible to stop the spread of silica dust that will result from their operations. Silica which has a plethora of health consequences, including silicosis and all its horrible symptoms. In some cases, silica dust can cause death from cancer.

We residents are relying on the integrity and common sense of your department to stop these proposals and to ensure that such industries are located in controlled areas where they do not have such a dire and detrimental impact on the lives of thousands of citizens.

Kind Regards

..... (Signature)
