RYLSTONE, NSW 2849

The Director,
Resource Assessments,
Planning and Assessment,
DPIE,
Locked Bag 5022,
Parramatta,
NSW 2124

Dear Sir,

APPLICATION NAME: BOWDENS SILVER MINE AMENDMENT
APPLICATION NUMBER: SSD5765
SUBMISSIONS REPORT JUNE 2021
'PROJECT SUPPORT' (Page 6)

I **object** to this proposal (SSD 5765).

I declare that I have not made any Donations or Gifts to any political party or personnel in the last two years.

Corkery, the author, attempts to put a positive spin on the nature and geography of written support for the proposed project. DPIE Assessments should be concerned by the distribution of supproters. Why are so many supporters from distant post codes including many interstate and country and suburban NSW. SVL has clearly canvassed all non-corporate shareholders (ASX:SVL) with a pro forma sheet to sign and return in the provided reply paid envelope.

In the meantime at the Rylstone newsagency Mr Shelley (a Bowdens employee), was handing out the same pro forma sheet for locals and visitors to sign and he would take care of the rest!

As a result the reported numbers are well in favour of the supporters. But if DPIE Assessments were to look at the nature and quality of the responses they'd see how shallow and meaningless most of them are. A single page pro forma completed whilst standing at a newsagency will always be limited in content.

Even the list of subject matter indicates generalist 'positives'; there are 16 subjects with a mere one item loosely labelled 'environment'. The 'object' submissions cover many more subjects (46 subject

areas of concern) and cover them in a great deal of technical detail. DPIE Assessments needs to take these qualitative issues into account.

This proposal should not be carried on a show of hands derived in this way. Content or quality of responses are not considered. Had the detail and depth of responses been recorded Corkery would not be just talking about post codes and numbers. DPIE Assessments needs to see though the scam.

Yours sincerely,

Chris 10/10
