Dear Sir/Madam, Re: Wellington Gas Fired Power Station

Application Name: ERM POWER PTY LTD

Application No. MP 06 0315 Mod 2

WE DO SUPPORT THE MODIFICATION REQUEST.

We believe this Power Station will benefit Wellington Community & urge ERM Power to get this project up & running as soon as possible.

We believe this project will create up to 400 jobs with opportunities for our locals & some ongoing jobs after completion.

ERM Power already has approval & we believe that approval time should be extended.

We also believe any noise level affecting neighbours to be minimal.

WELLINGTON NEEDS THIS INVESTMENT.

None of us have made any political donations over the past 2 years.
