Response to Submissions

The exhibition of the Environmental Impact Statement (EIS) for the above proposal ended on 27 October 2019. All submissions received by the Department during the exhibition of the proposal are available on the Department's website at www.planningportal.nsw.gov.au/major-projects/projects.

The Department requests that you provide a Response to Submissions that addresses the issues identified in the submissions from members of the public, interest groups and government agencies.

Should components of the proposal be amended to improve the design of the proposal, respond to issues raised in submissions or reduce the impacts of the project, Roads and Maritime Services must outline these changes to the project in an Amendment Report with any amended SSI application. The Department may exhibit and seek public comments on the Amendment Report.

Under Section 5.17 of the *Environmental Planning & Assessment Act 1979*, the Planning Secretary may require a Preferred Infrastructure Report be submitted. The Department may exhibit the Preferred Infrastructure Report.
