Subject: SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because it will severely impact on the liveability of the area and it will also interfere with the surroundings that my children will grow up in as well as future generations. It will destroy a booming area for residential living and potentially force families and others to look elsewhere to settle. We should be expanding residential development in the west, take note of Edmonston Park, which is even further out. This area is a prime location for families to settle, including beautiful parks, lakes and rivers. Instead this project will push people out.

Yours sincerely,
Lara Popovic
