7 December 2020

The Secretary
Department of Planning, Industry & Environment
Via: Major Projects Portal

Attn: Tegan Cole
Senior Environmental Assessment Officer

Dear Tegan,

Stockton Sand Quarry Dredging Project (SSD9490) – Updated Biodiversity Development Assessment Report

Reference is made to the above mentioned State Significant Development, Development Application currently under assessment by the Department of Planning, Industry and Environment.

In September 2020, Boral submitted and amended Biodiversity Development Assessment Report (BDAR) as part of volume 1 of the Response to Submissions (RtS) report. In section 4.2.2 of the RtS (volume 1) reference was made to further and ongoing flora and fauna surveys that were scheduled to occur in November 2020.

These surveys have now been completed and the BDAR updated to reflect the outcomes. The updated BDAR is now attached for review and referral to the relevant agencies as part of the ongoing assessment of SSD9490.

If you have any questions, or would like to discuss this matter in more detail, please feel free to contact me on **0401 894 110** or rachael.snape@boral.com.au

Yours sincerely,
