- Proposed New Metro Route
- Current Metro West Route

A Proposal for a **Lilyfield Metro West** station:

To offer efficient public transport options for Leichhardt, Lilyfield, Haberfield and Drummyoyn (either within a 1km walking catchment or further by bike)...
 Also provides a truly efficient modal transfer point (buses, light rail, Metro) and a new local center for Lilyfield, that could act as a catalyst to re-vitalise Norton Street's north.
