Reason / Comment:

The proposed mine will have a very positive impact on employment in the nearby town of Mudgee and also benefit the wider NSW economy at a time of recession consequent to COVID-19. That it is a low risk in terms of health and safety for miners and nearby farms and residents is a plus. Likewise the environmental impact is low.
Another factor to support it is that silver is a major component of solar panels. As there are now being produced in Australia it will provide a means of value adding to the production of silver.

☒ I have ☐ have not made any political donations in the last two years. (If yes, please disclose).

Liberal Party Membership - \$100 (pa); Recent donation of \$50 to Eden-Monaro by-election for Liberal Candidate.
