Reason / Comment:

I strongly object to the proposed mine. Having read the EIS and listened to experts I conclude that this mine will ruin the immediate environment forever. The mine's dust and water will spread like a cancer for ever. It will eventually threaten a wider area, including valuable food producing land, and then the town of Mudgee. And once in the waterways who knows where this contamination will end. It would be good to stop this. Forever.

☐ I have ☒ have not made any political donations in the last two years. (If yes, please disclose).
