Reason / Comment:

The proposed project will provide significant benefits to not only the local community but also to New
South Wales and Australia.
The project as detailed in the EIS appears to be have been designed to minimise impact and
provides for progressive and final rehabilitation of the site ti its natural state.
It will provide new local employment and provide opportunities for local businesses.
Given that we currently have record numbers of Australians that are unemployed any new projects
that provides employment and supports communities should be fully supported.
