Reason / Comment:
I strongly object to the proposed mine.
Having read the EIS and listened to experts
I conclude that this mine will ruin the
immediate environment forever. The mine's
dust and water will spread like a cancer
for ever. It will eventually threater a
wides area, including valuable food
producing land, and then the tonsh of
Mudger. And once in the waterways
who knows where this contamination
Mudger. And once in the waterways who knows where this contamination will end. It would be good to stop this. Forever.
Forever.
I have I have not made any political donations in the last two years. (If yes, please disclose).
