To Whom it may concern,

My name is ALAN DALE.

I am 70 yrs old. I have lived at Lue for 50 years. I thought I would live my retirement in peace and quiet. No one would want to buy my house, so I have no opportunity to move away from the toxic air and water. I've saved for years to afford to put in a water bore. That money will be wasted if the mine is allowed to take all the ground water. I love to sit on my front verandah, and watch the wildlife about me. What will happen to these lovely creatures? I'm sure lead in the air and water will affect them. Our local Mayor, Mr Des Kennedy is happy to sacrifice 200 families livelihood and health, for the sake of 200 jobs. I'm not against jobs or mines, but less than 2 KMs is too close. We have seen in the past, any mining in small towns, kills the community. Just look what happened in Wollar. Another small community gone. Is this our fate? Lead has been banned in petrol and paint. Why. Because it's deadly, so shouldn't it also be illegal less than 2KM from school children and locals houses. Please don't let this happen to us.

Thank you.
