Reason / Comment:

mine development and operations will provide 2 decades of employment for the
region. silver is one of the most important metals moving forward for medical
equioment, solar panel systems, electric cars as well as investing. The flow on effect
for not only NSW but Australia will be immense with many organisations and
individuals mutually benfitting from the positive outcome. not to mention the tax
benefits for the Govt and that we have anothr product to export to the world.
There is no downside with this operation. the environment will be protected
of course by law and the region gets a huge boost.
moving forward into uncertain times and unprecedented events, this project will
shine light not only on the mining aspect but Australia as a whole.

I have  have not made any political donations in the last two years. (If yes, please disclose).
