Re St Patrick's College, Strathfield – Science & Learning Building SSDA – Community Use

St Patrick's College, Strathfield (the College) is open to sharing a section of the new Science & Learning facility with the local community. Specifically, the two fenced off podium level basketball courts. The sharing of facilities would be contingent on continuing talks with Council to obtain clarification regarding any claims for damages or loss in respect of any injury or damage the public may incur whilst using College facilities and liability for any property damage as a result of external use.

Pending the resolution of this the College proposes that the podium level basketball courts would be open for community use during the school holiday breaks from Monday to Friday 9am-3pm.

Exceptions to this would be a two week closure during the Christmas & New Year period due to an absence of staff to lock up and secure the site or in the event the College is hosting occasions or running educational programs which require the use of the basketball courts in the holiday breaks.

Kind Regards,

St Patrick's College, Strathfield
Director of Business Services.
