

Parramatta city council,

We are the residents who live on winter street Telopea. The mail is to object to the construction of the entrance to the garage at the end of Winter Street, which is on Telopea Concept Plan and Stages 1A. See appendix:

In appendix -> EIS-> Appendix L2 Stage 1A Public Domain, page 3, you will see the designed entrance at top left (end of Winter Street):

The reason is as following 3 points:

1. Winter street is **narrow and congested** with street parking cars of current residents. It is too narrow for even a 2-way transport.
  - 2 The entrance from Adderton to Winter street has some issues and is not suitable for more traffic.
    - When we enter and exit the street, there is a **sharp turn**. It is easy to miss and dangerous when you turn. Plus, if it got more traffic, it would be dangerous for the traffic on Adderton Road.
    - Adderton is **narrow around the bridge area**, where the entrance to Winter Street. It is not possible for cars to do a 3-point-turn. Not easy to enter or exit.
    - Due to the bridge the **vision** at the intersection is not good. People drive fast on Adderton and need to turn fast else it's easy to get hit.
    - There is no traffic light at the exit currently.
  3. The community likes this quiet small street because it is not a through road so safe for pedestrians. Before the end of 2019, we got many people entering the Telopea Train station through Winter street. The residents here have a higher percentage of senior people as well as downsized families. They are not agile with movement. More traffic is not good news to those families.
  4. Sturt Street is wide and has no sharp turn. With around 10 fully occupied apartment buildings before 2018, it is still far from a busy street. I cannot see any reason why we do not use Sturt street as a garage entrance.
- We sincerely wish the government could withdraw the decision to build the entrance to the garage on Winter street. It is not a wise decision for the neighbourhood and the traffic / safety in this area.

Best Regards,

Residents on Winter Street
