Subject: RE: URGENT RE: Notice of Exhibition - Upper South Creek Advanced Water Recycling Centre Project (SSI-8609189) - CB Council

Hi Nathan

Apologises for the delay

Council submission for Upper South Creek Advanced Water Recycling Centre Project (SSI-8609189)

Council acknowledges that only a very small portion of the project is within the Canterbury Bankstown City however the area impacted does have high environmental and amenity value to the community

The project will impact Lansdowne Reserve and the following shall be addressed

- No impact on the "Biobank" in Lansdowne Reserve
- Coordination with Council for the access and construction requirements (CTMP) of the project to mitigate low term effects on the area.
- Coordination with Council for remediation and maintenance requirements for the works within the reserve
- Coordination with Council for specific works within Lansdowne Reserve to improve access routes through the reserve and enable suitable restoration on cessation of the occupation

Appreciate your acceptance of these comments noting that CBCity has engaged continuously with the Upper South Creek Advanced Water Recycling Centre Project team and these comments have already been discussed with the team at length

We look forward to continuing our collaboration through the construction phase of the project

cheers
