Attention: Manager-Industry Assessment

Dear Sirs,

**RE: ProTen Poultry Production Complex, Euroley, Narrandera LGA (SSD 6882) Notice of Exhibition**

Herewith, we would like to object to the Development Application submitted by Pro Ten Holdings Pty Limited.

Our main concerns are:

1. Contamination of aquifers in case of mass on-site burial as well as the run-off of chemicals, disinfectants, antibiotics, etc.
2. No access to the site in a flood-situation. What would happen to the processing of birds, feed supply, disposal of dead birds, etc.
3. Contamination of surrounding farms through dust containing harmful particles.
4. Odour, noise and excessive traffic affecting the life-style of people living in surrounding areas.
5. The prevailing winds within the area are generally of a north-westerly direction and therefore the winds would directly affect Warilba and other landholdings within the Devlins Bridge Rd district and surrounding areas with harmful odours.
6. The planned access intersection onto the Sturt Hwy is within a densely wooded area, increasing the risk of MVAs as oncoming traffic is not clearly visible at the particular point.
7. Devaluation of neighbouring properties due to all of the above points of concern.

We trust you will take our concerns into consideration.

Yours sincerely,

Andreas and Maria Steiner
