LEGEND

-  - SUBJECT SITE
-  - LOCAL GOVERNMENT AREA
-  - SURROUNDING SUBURBS

KEY POINTS

LOCALITY

The Traditional Custodians of the land that lies within and surrounding Cessnock Local Government Area (LGA) are the Wonnarua Nation, and also includes Darkinjury and Awabakal lands. Wonnarua means 'land of hills and plains', describing the area simply and beautifully. Many localities in the Cessnock LGA have Aboriginal place names & histories that are deeply significant to Aboriginal peoples and to our greater understanding of history and Aboriginal culture.

As Cessnock lies directly between Australia's earliest European settlement locations (Sydney, the Hawkesbury and the Hunter) it also met with early European contact, which was very harmful to the Darkinjung tribes.

European settlement of Cessnock began in 1823 and the land was harvested for cedar and rosewood by convicts. Maize, wheat, oats, barley, potatoes and tobacco were also planted and farmed. Cessnock then transitioned into one of the largest coal mining cities in Australia, with the establishment of the South Maitland Coal Fields in 1903, having a strong impact on the area.

The lands of Nulkaba were set aside for a church and school in the area, with St Luke's Anglican Church built in 1872, and the first school in 1877.

Today, Cessnock LGA is known as the Gateway to Wine Country, which includes Pokolbin, Mount View, Lovedale, Broke, Rothbury and Branxton. Due to the vineyards, beautiful vistas and landscapes reflective of *Wonnarua*, the area is a fast-growing tourist destination.

Cessnock is home to both public and private schools, supermarkets, a TAFE campus, a community health care centre, police station and hotels, hostels, entertainment venues, cafes, pubs and as stated, many wineries.

SCHOOL DETAILS

10 Lomas Street
Nulkaba, NSW 2325

SCHOOL CONTEXT

St Philip's Christian College, Cessnock Campus is a long, linear, rural site. The school campus is located to the north, only consuming a small portion of the land, with open, vast land extending across the rest of the site. The site is approximately 433,720m² in size and made up of mostly open fields, curving tree lines and natural and man made water beds. The school campus has a busy main road to the west, a generally quite local road to the north, residential properties to the south and a dense tree line and creek bed to the east.

Access into the site is from Lomas Lane (to the sites north) with no access yet granted from the busy Wine Country Drive (to the west). Due to the close proximity to Black Creeks and surrounding waterbeds, the generally flat site is subject to flooding. A fill pad surrounding the existing buildings has been developed with the possibility of expanding into the future.

The school has connections to the road network leading to such destinations as Cessnock city centre to the south, Hunter Valley vine yards to the north and Hunter Valley Zoo to the east.

The school campus has no listed heritage items, and is made up of primarily modular buildings which can be easily relocated. There are 5 key permanent buildings existing on site, the Junior School building, the Library HUB building, the Trade Training building, the Activate Centre and the Senior School Stage 1.

LEGEND

- OPPORTUNITIES
- CONSTRAINTS

KEY POINTS

OPPORTUNITIES

1. UNIQUE RURAL CAMPUS SETTING WITH VIEWS TO BROKENBACK RANGE AND OUT TO OPEN PLAINS.
2. BUSH CONTEXT WITH EXCELLENT NATURAL AMENITY: REMNANT FOREST & BLACK CREEK.
3. WELL ORIENTATED NORTH-SOUTH, ACCESS TO LIGHT AND VENTILATION.
4. ABUNDANT AREAS OF CLEARED VEGETATION FOR OUTDOOR PLAY.

CONSTRAINTS

5. LIMITED DEVELOPABLE AREA DUE TO NATURAL ENVIRONMENTAL FACTORS INCLUDING FLOOD AND BUSHFIRE.
6. WINE COUNTRY DRIVE & LOMAS LANE FRONTAGE NEEDS TO APPROPRIATELY MANAGE TRAFFIC, TRANSPORT AND STAFF/STUDENT/ VISITOR ROAD SAFETY.
7. ARCHAEOLOGY STUDY FOUND ARTIFACTS AND CULTURAL SITES OF IMPORTANCE SCATTERED ACROSS THE SITE. A 50M BUFFER ZONE WAS ESTABLISHED AROUND BLACK CREEK.
8. EXISTING INFRASTRUCTURE ON THE SITE DICTATES POSSIBLE MASTERPLAN OPTIONS.
