I object to the project ☒ I'm providing comments ☐ I support the project ☐

Your Comments

I made a submission when the mining company first lodged its D.A.. Nothing has changed from my view since then except that the proposal is now even worse than before as a result of the mine erroneously claiming it can source all its water needs locally without having to pipe water in from elsewhere.

It is a disgrace to allow applicants to keep amending their applications & expect all of us to keep making submissions each time in response.
