I object to the project ☒ I'm providing comments ☒ ~~I support the project ☒~~

### My Comments

1. Lawson Creek is identified in the NSW Stressed River Assessments to be in the most seriously stressed category with a high level of environmental stress as well as a high extraction rate.
2. Bowdens Mine proposes to transfer water licences from further down the Macquarie catchment as well from the Sydney basin catchment, further depleting Lawson Creek
3. Lead is poisonous for Lue
4. Having previously lived in the district for many years I believe I understand the gravity of the proposed mine
